Backwater Valves

The horizontal normally closed backwater valve is intended to be used with DWV or sewer piping systems running horizontally downstream of drainage fixtures. They are used when risks of flooding due to sewer surcharge or back-up exist.

Features & Benefits:

- Made of ABS durable material, will not pit or corrode
- Designed with smooth walls and rounded corners that prevent accumulation of solid waste, therefore reducing chances of failure
- Money saving investment in case of sewage backup
- Peace of mind

ABS DWV Fittings 5 YEAR LIMITED WARRANTY

Subject to the conditions and limitations in this Limited Warranty, BOW guarantees its ABS DWV pipe and fittings, against defects resulting from faulty manufacturing for 5 years from the initial date of sale by BOW. BOW will not be liable for damages caused by raw materials or component defect failures.

Defects and failures must be reported to BOW within 30 days after such failure occurs. The claimant under this Limited Warranty will be required to return the product to BOW at claimant's expense for analysis by BOW. If the conditions of this Limited Warranty are met, BOW will ship, free of charge and freight prepaid, a quantity of product equal to the failed product or will reimburse the purchase price of the failed product at BOW's option. In no case, will claims for labor charges, consequential property damage or personal injury be honored.

This Warranty is the only Warranty made by BOW and is expressly in lieu of all other warranties expressed by anyone or implied, including implied warranties of merchantability or fitness for a particular purpose.

The Limited Warranty will only apply:

1. If the product is installed in accordance with good plumbing and heating practices, applicable code requirements and Wavin's current published installation instructions and,
2. If the product is not misused, abused, kinked, mishandled, damaged, improperly stored, or improperly exposed to UV or exposed to excessive heat, cold or pressure or incompatible media.
